Specifications

- 1 Table top cores are 1" thick particleboard with a horizontal grade high pressure laminate top surface and a balancing backer sheet to finish.
- 2 All edges are 3mm PVC edge band with machine application (Not hand applied). PVC is eased to a 1/8" radius to remove sharp edges.
- 3 Metal legs are 2" in diameter with a durable powder coat finish. Table heights are adjustable in 2" increments from 21"H to 29"H.
- 4 Leg levelers, adjustable by 1-1/4".
- 5 3" diameter swivel and locking contemporary caster.
- 6 Dry erase marker board laminate tops are an optional add-on for the engage tables.
- 7 All legs are attached to the bottom side of the work surface with bolts that pass through the leg plate and into threaded metal inserts in the work surface core (No screw attachment). This allows for a very strong metal to metal hardware connection.

DESIGN INSPIRATION

Not sure what direction to take with your space? Here are some ideas to get you inspired! Our engage tables are incredibly versatile, designed to be used individually or combined with other tables and shelving!

Combine Harmony, Sync, and Stella tables in a variety of different ways. All engage tables are available in a white, gray or colored marker board finish.

Explore our diverse palette of colors, including vibrant hues, calming neutrals, and wood grains. We've got you covered for all your design preferences.

Arc tables offer an efficient way to utilize available space around most column diameters.

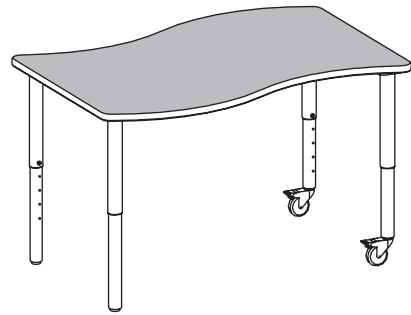

Use flare tables individually or combine them for a group project.

Alpha, Beta, Focus, and Comet tables can also be used with single sided radius shelving from our Envision Series. (Comet tables pictured)

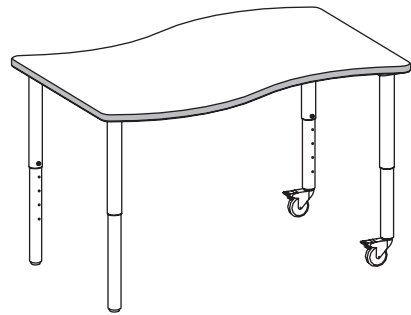

Color Placement Guide

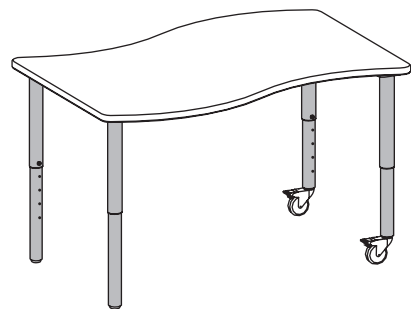

01 Select your Laminate

Choosing the right laminate can play an important role in the look and feel of your learning environment. Neutral tones like whites and grays offer versatility, while bold colors like blues and greens add character. Wood grain options have a timeless aesthetic that combines the warmth and charm of nature.

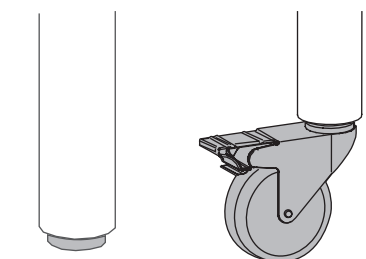

02 PVC Edge Band

Our 3mm PVC edge band not only provides a great protective layer for the table's edge, but it can also be a design element to elevate the overall look of the table. Choose neutral colors for elegance, woodgrain to match your laminate, or add that fun pop of color!

03 Metal leg Colors

The metal legs you opt for should harmonize with the existing color palette and materials in your space. White offers a modern, bright look, gray is versatile and sophisticated, while black exudes elegance and boldness.

04 Casters or Levelers

When choosing legs for your table, consider the benefits of caster legs (mobility) and adjustable leveler legs (stability on uneven surfaces). Combining both types can offer a balance between functionality and the convenience of easily being able to rearrange your space.
